

**“Hello,
Penn
Central?
I need six
replacement
springs!”**

At Penn Central Spring we thrive on fast turn around.

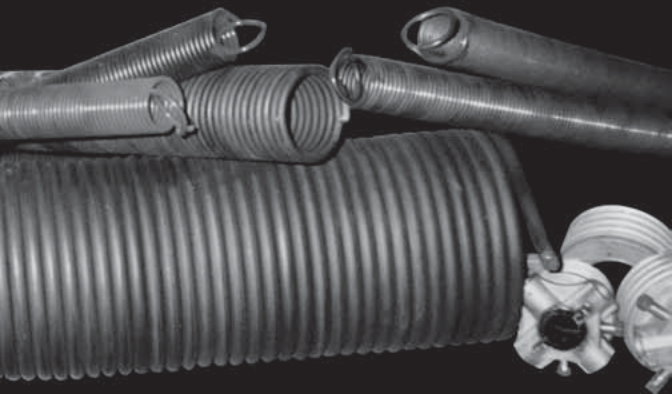

So as soon as we receive your order, we process and get it out the door. We will ship it any way that gets the springs to you wherever you or your customer needs them.

Getting the exact spring you need is easier than you think. Just call us.

Any type of spring used by the rolling door industry. Shaft-mounted torsion or extension springs. Even duplex spring-within-a-spring units. In diameters from 1/2" to 6", in all wire sizes from .125 to .531. And we'll coil your springs immediately upon receipt of your order.

For new doors, we'll engineer the springing for you.

Just give us total door weight, door type, head room, and any special requirements, and we'll send you springing matched precisely to the job. For over 35 years, at Penn Central Spring our only business is getting the *right* spring to you-*fast!*
